## CONTACT US - REPORT A SITE

The UIT Brownfields Program can only investigate what it knows about. Input from the community is crucial. We encourage information about potential sites on the U&O Reservation as well as sites we are currently investigating. Although Brownfields grant funds are utilized to investigate tribal trust lands on the Reservation, allotment or fee lands may be eligible for assessment. Contact the UIT Brownsfield Coordinator for details on this.

### BROWNSFIELDS SITES CAN POTENTIALLY INCLUDE THE FOLLOWING:

- Landfills
- Abandoned buildings
- Open/illegal dumping (particularly involving hazardous wastes like gas, oil, pesticides, paints, etc).
- Methamphetamine labs: Materials found at these sites are extremely hazardous; don't investigate yourself. If you suspect a meth lab in operation or discover a location you suspect might be a former meth lab, call the police immediately.
- Above-ground or underground fuel storage tanks that are abandoned or suspected to be leaking.
